INTRODUCTORY SECTION

Board of Commissioners

October 12, 2022

Ted Schulz President

Brian Fischer Vice President

Garry Kraemer Treasurer

Dale Larson Secretary

Bill Thomson Commissioner

Greg S. Lewis Executive Director To: Members of the Board of Commissioners and Citizens of the New Lenox Community Park District

The Annual Comprehensive Financial Report of the New Lenox Community Park District, Illinois for the fiscal year ended April 30, 2022, is hereby submitted for review. The report presents the results of the District's financial transactions for the year and the financial condition of the District at the end of the year.

This report consists of management's representations concerning the finances of the New Lenox Community Park District (the "District"). We believe that all disclosures necessary to enable the reader to gain an understanding of the District's financial condition have been included. Responsibility for both the accuracy of the presented data and the completeness and fairness of presentation, including all disclosures, rests with the District's management. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse, and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with Generally Accepted Accounting Principles (GAAP). Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been audited by PKF Mueller, a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the District for the fiscal year ended April 30, 2022, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the New Lenox Community Park District's financial statements for the fiscal year ended April 30, 2022, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

i

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The New Lenox Community Park District's MD&A can be found immediately following the report of the independent auditors.

Profile of the District

The New Lenox Community Park District was incorporated on May 9, 1969. The District encompasses an area of approximately 32 square miles, following the New Lenox Township boundaries, servicing all of the Village of New Lenox, Illinois with the remainder being unincorporated Will County. The District is located approximately 36 miles southwest of the City of Chicago and 1 mile east of the City of Joliet. Neighboring communities include Joliet to the west, Homer Glen to the north, Manhattan to the south, and Mokena and Frankfort to the east. The District estimates its population to be 68,000.

A five-member Board of Park Commissioners elected at large for four-year terms governs the District. The Board is responsible, among other things, for setting policies, adopting the budget, appointing committees, and hiring the District's Executive Director. The Executive Director carries out the policies of the Board, supervises day-to-day operations of the District and hires the administrative staff.

The District owns eight buildings and 507 acres of park land and leases an additional 90 acres. Among the District's facilities are 39 park/athletic sites with 10 basketball courts, 4 tennis courts, 38 playgrounds, 14 softball fields, 15 baseball fields, 22 soccer fields and jogging and hiking trails. The District also operates the Sanctuary Golf Course facility which includes an 18-hole course, practice range, short game area, putting green, as well as a full-service golf shop and clubhouse with food service. Facilities and programs are offered for a variety of athletic, fitness and recreational interests including flag football, basketball, camps, dance and the before and after school programs.

The District is required to adopt a final budget within or before the first quarter of each fiscal year. This annual budget serves as the foundation for the District's financial planning and control. The budget is prepared by fund and department (e.g., recreation). The Executive Director may make transfers of appropriations within a department. Budget transfers between departments require approval of the District's Board.

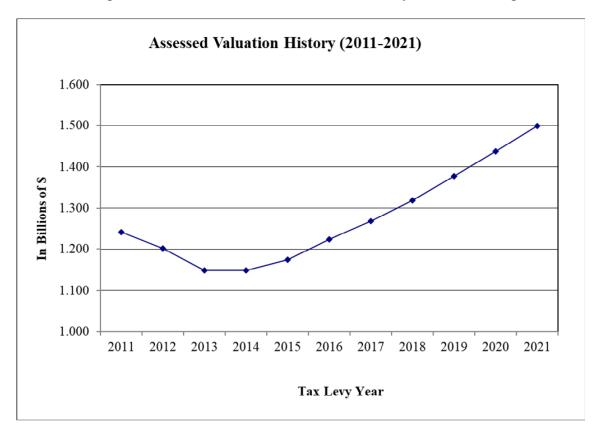

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

Local economy. While the majority of the State and County are still experiencing a slowdown in residential home sales, New Lenox is starting to see a modest increase in building due to the commercial development within the route 30 corridor. Although the District is experiencing a slowdown currently; growth is still expected in the future. According to the Northeastern Illinois Planning Commission (NIPC) 2030 Forecasts, New Lenox Township will increase the number of households from 9,704 in 2000 to 25,672 in 2030. This is an increase of more than 260%. Overall population is expected to increase from 29,730 in 2000 to 80,925 in 2030. The region has a varied light

manufacturing and industrial base, which adds to the relative stability of the unemployment rate in relation to the state and national unemployment rate.

The District experienced an increase in the taxable assessed valuation. The 2021 taxable assessed valuation of \$1,498,625,960 is 4.3% higher than 2020. The 2021 assessed valuation is used to calculate property taxes payable in 2022. The graph below illustrates the growth in taxable assessed valuation from tax years 2011 through 2021.

Long-term financial planning. While the District is still committed to providing many free services for all residents, including numerous picnic areas, playgrounds and athletic sites, many activities now require specialized facilities or maintenance. Thus, the District has made a concerted effort to gradually require fees and charges for District services to be increased to cover more of the District's direct annual operating costs for these specialized facilities. The individual who benefits directly from these specialized services then pays more of the direct annual operating costs for these services. In addition, the District maintains a scholarship program for participants that cannot afford to pay for District programs or services to ensure that all residents within our community have access to District programs and services.

Facility renovation and improvements as well as equipment replacements are scheduled for completion within the District's capital improvement plan. This plan is updated annually along with the Budget and Appropriation Ordinance to ensure sufficient resources to maintain the District's current facilities and to determine what resources are available for new projects. As part of the District's capital improvement plan, the District has focused significant efforts toward developing partnerships with other public and private organizations or businesses in order to expand services. This has allowed the District to multiply its capital improvement dollars. The District continues to partner with the Village of New Lenox and local developers for the development of neighborhood parks, through the subdivision control ordinance. The developer annexes the land for the proposed housing development to the District and provides capital for the development of a neighborhood park. The District uses the capital provided by the developer to match a grant secured through the Illinois Department of Natural Resources. This results in a new neighborhood park for the community and the expansion of the District's boundaries through annexation. This expansion provides increased property tax dollars to the District for all future years. The District successfully utilized this approach in 1998 for Schoolhouse Manor Park, 2000 Sharon's Bay Park, 2003 Palmer Valley Park, 2004 Freedom Park, 2005 Wildflower Park, 2006 Crystal Springs Park, 2007 Hibernia Park, 2011 Country View / Royal Meadows Park, 2013 Walker Country Estates Park, 2019 Leigh Creek South, 2021 Sky Harbor Park, and 2022 Hibernia Park Phase II. It is the intent of the District to continue with this partnership.

Forming partnerships with the Village of New Lenox, local school districts, Associations and others in order to share facilities has enabled the District to further expand its services while maintaining a stable property tax rate.

Award. The Government Finance Officers Association (GFOA) awards a Certificate of Achievement for Excellence in Financial Reporting to governmental entities who publish an easily readable and efficiently organized Annual Comprehensive Financial Report (ACFR). This report must satisfy both generally accepted accounting principles and applicable legal requirements. This is the fifteenth year the New Lenox Community Park District is applying for the GFOA Certificate of Achievement and Excellence in Financial Reporting.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report will again meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for this prestigious award.

Acknowledgement. The District is fortunate to have a dedicated publicly elected Board of Commissioners and staff who are committed to serving the residents in our District and surrounding areas. The leadership provided by the Board of Commissioners and the full-time staff is essential to conducting the financial operations of the District in a responsible and prudent manner while continuing to serve the changing needs of our citizens.

Our appreciation is sincerely expressed to the District's Board of Commissioners for their foresight and contribution of support for the ACFR and for their responsible and progressive leadership that allows us to continue to enrich the quality of life of our citizens today and for future generations.

Respectfully submitted,

Greg S. Lewis Greg S. Lewis, Executive Director

INDEPENDENT AUDITOR'S REPORT

Members of the Board of Commissioners New Lenox Community Park District, Illinois

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the New Lenox Community Park District, Illinois, as of and for the year ended April 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the New Lenox Community Park District, Illinois, as of April 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund and the major special revenue funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the New Lenox Community Park District, Illinois, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the ability of New Lenox Community Park District to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Certified Public Accountants Business & Financial Advisors Offices in Elgin, Chicago, Orland Park, Naperville, & Sarasota

PKF Mueller is a member firm of the PKF International Limited family of legally independent firms and does not accept any responsibility or liability for the actions or inactions of any individual member or correspondent firm or firms.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of New Lenox Community Park District, Illinois. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the ability of New Lenox Community Park District, Illinois to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and employee benefit plan information plan information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements of New Lenox Community Park District, Illinois. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements as a whole.

We also have previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of New Lenox Community Park District, Illinois for the year ended April 30, 2021, which are not presented with the accompanying financial statements and we expressed unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information. That audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements of New Lenox Community Park District, Illinois as a whole. The individual fund financial statements and schedules for the year ended April 30, 2021, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the basic financial statements for the year ended April 30, 2021. The information was subjected to the audit procedures applied in the audit of those basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual fund financial statements and schedules for the year ended April 30, 2021 are fairly stated in all material respects in relation to the basic financial statements from which they have been derived.

Other Information

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

PKF Mueller

Orland Park, Illinois October 12, 2022 MANAGEMENT'S DISCUSSION AND ANALYSIS

New Lenox Community Park District Management's Discussion and Analysis For the year ended April 30, 2022

As management of the New Lenox Community Park District (the "District"), we offer readers of the New Lenox Community Park District's financial statements this narrative overview and analysis of the District's financial activities for the fiscal year ended April 30, 2022. We encourage readers to consider the information presented here, in conjunction with the District's financial statements and notes to the financial statements, to enhance their understanding of the District's financial performance.

Management's Discussion and Analysis (MD&A) is designed to: (1) assist the reader in focusing on significant financial issues, (2) provide an overview of the District's financial activity, (3) identify changes in the District's financial position (its ability to address the next and subsequent year challenges), (4) identify any material deviations from the financial plan (the approved budget), and (5) identify individual fund issues or concerns.

Management's Discussion and Analysis is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued June 1999. Certain comparative information between the current year and the prior years is required to be presented in the MD&A.

Financial Highlights

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources by \$27,738,661 at April 30, 2022.
- Total net position increased from \$26,586,903 to \$27,738,661 as a result of operations over the course of the year. In the fiscal year ended April 30, 2022, the Board continued the implementation of a 5-year plan to build fund reserves in order to support favorable bond ratings.
- Property taxes collected totaled \$3,398,544 compared to the prior year collections of \$3,271,308. This increase of \$127,236 was the result of a 3.9% increase in the overall assessed valuation, along with a .4% decrease in the tax rate.
- The District continues to have the ability to devote resources toward maintaining, improving, and expanding its parks, playgrounds, and facilities. In the year ending April 30, 2022, \$1,328,672 was spent in the governmental funds on capital outlay for the District's improvements. The focus in fiscal year 2022 was on the projects under contractual obligation or strict time restrictions. Projects included work on the new park at Sky Harbor and completion of the park at Leigh Creek South and the Fitness Court adjacent to the Park District's Administration Building, as well as various upgrades at park locations.
- The District's outstanding general obligation debt was \$378,000 as of April 30, 2022. This reflects the retirement of \$182,000 in debt.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The District's annual report includes two governmentwide financial statements. These statements provide both long-term and short-term information about the District's overall status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The first of these government-wide statements is the *Statement of Net Position*. This is the District-wide statement of position presenting information that includes all of the District's assets, liabilities, and deferred inflows and outflows of resources, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District as a whole is improving or deteriorating. Evaluation of the overall health of the District would extend to other non-financial factors such as diversification of the taxpayer base or the condition of the District's infrastructure in addition to the financial information provided in this report.

The second government-wide statement is the *Statement of Activities*, which reports how the District's net position changed during the current fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of the cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned, unused vacation and sick leave).

Both government-wide financial statements distinguish governmental activities of the District that are principally supported by taxes and intergovernmental revenues, such as grants *(governmental activities)*, from other functions that are intended to recover all or a significant portion of their costs through user fees and charges *(business-type activities)*. Governmental activities include culture and recreation activities. Business-type activities include the operations of the golf course and banquet facilities.

The government-wide financial statements are presented on pages 1-4 of this report.

Fund financial statements. A *fund* is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The District uses funds to ensure and demonstrate compliance with finance related laws and regulations. All funds of the District can be categorized as one of two types: governmental fund or proprietary fund. Within the basic financial statements, fund financial statements focus on the District's most significant funds rather than the District as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation. Individual fund data for nonmajor funds is provided in the form of combining statements in a later section of this report.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, the

focus is very different with fund statements providing a distinctive view of the District's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitments of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to assist in understanding the differences between these two perspectives.

The District maintains eleven governmental funds. Information is presented separately for the major governmental funds in the Balance Sheet – Governmental Funds and in the Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds. The General Fund, Recreation Fund, Special Recreation Fund, Debt Service Fund, Capital Projects Fund and Land Acquisition and Building Fund are considered major funds. There are five nonmajor governmental funds.

Budgetary comparison statements are included in the basic financial statements for the General Fund and major special revenue funds. Budgetary comparison schedules for other special revenue funds can be found in a later section of this report. These statements and schedules demonstrate compliance with the District's adopted annual appropriated budget.

The basic governmental fund financial statements are presented on pages 5-12 of this report.

Proprietary funds. Proprietary funds are reported in the fund financial statements and generally report services for which an entity charges customers a fee. There are two kinds of proprietary funds. These are enterprise funds and internal service funds. Enterprise funds essentially encompass the same functions reported as business-type activities in the government-wide statements. Services are provided to customers external to the entity's organization. Internal service funds provide services to customers within the organization. The District operates no internal service funds.

The District uses enterprise funds to account for activities related to golf course and banquet hall activities.

Proprietary fund statements provide both long-term and short-term financial information consistent with the focus provided by the government-wide financial statements but with more detail for major enterprise funds. The basic proprietary fund financial statements can be found on pages 13-17 of this report.

Notes to the financial statements. The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements can be found on pages 18-46 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the District's progress in funding its obligations to provide pension benefits and other postemployment benefits to its employees. This information is provided on pages 47-53 of this report.

Other supplementary information includes combining individual fund financial statements and schedules which can be found on pages 54-85 of this report.

Government-wide Financial Analysis

The District implemented the financial reporting model used in this report beginning with the fiscal year ended April 30, 2005. Over time, as year-to-year financial information is accumulated on a consistent basis, changes in net position may be observed and used to discuss the changing financial position of the District as a whole.

The District's total net position increased 4.33%, or \$1,151,758 to \$27,738,661 in 2021-2022. The increase is the result of improved revenues in the Golf Course Fund, as well as increased capital grants. The District also saw improved revenue in the Recreation Fund, as programs began to return to normal after the disruption of the COVID-19 pandemic. Overall, there was a 3.9% increase in property tax revenue resulting from higher assessed valuations.

The District's net position is comprised of its net investment in capital assets (e.g., land, buildings, improvements, infrastructure, machinery and equipment, vehicles, and construction in progress, less any related debt used to acquire those assets that is still outstanding), restricted and unrestricted net position. The District uses the capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

New Lenox Community Park District – Changes in Net Position

Governmental activities. Governmental activities increased the District's net position by \$825,487. Key elements of the increase are as follows:

- Registration fees for Recreation programs increased by 172.0%, or \$1,056,974, to a total of \$1,671,557. Participation in programs is recovering after the disruption from the COVID-19 pandemic but have not yet fully reached pre-pandemic levels.
- Capital contributions and grants increased by 5.0%, or \$24,811, to a total of \$522,750. The District received the final payment on the Illinois Department of Natural Resources OSLAD grant for Leigh Creek South, and developer donations for Heather Glen, Jacob's Field, and other park projects.

Business-type activities. The primary business operation in the District is the Sanctuary Golf Course. In January 2007, the District moved all operations of the Golf Course back under the direct control of District personnel. Prior to this time, the Golf Course had been operated by a third-party management company who also maintained the financial records for the facility. The results of operations had been historically added to the District's books and records only at fiscal year-end.

The financial results of the overall business-type activities for the fiscal year showed an increase in net position by \$326,271. Key elements of this increase are as follows:

- The Golf Course generated an increase in net position of \$283,398 to \$2,885,804. Greens fees and cart rentals increased 2.7%, or \$37,941, to \$1,441,438. Pro shop revenue increased 45.9% or \$67,509 to \$214,644. Revenue gains were offset by rising operating costs, which increased 20.7%, or \$320,523, to \$1,869,310.
- The District also generated an 86.6% increase in net position of \$42,873 to \$92,390 from other proprietary fund activities. Operating revenue is starting to recover from the impact of the COVID-19 pandemic.

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. As discussed, government funds are reported in the fund statements with a short-term inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements. Governmental funds reported an ending fund balance of \$1,496,662 at April 30, 2022, a decrease of \$130,226 from the prior year.

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, the General Fund showed a fund balance of \$488,344. The net decrease of \$26,989 was less than the deficit budgeted and was primarily the result of lower expenditures resulting from ongoing cost cutting measures.

The Recreation Fund has a fund balance of \$104,389 at April 30, 2022. The net increase of \$225,012 was primarily due to increased revenues as programs recover from the COVID-19 pandemic, as well as an increase in the allocation of property taxes to the fund.

The Special Recreation Fund has a fund balance of \$390,774 at April 30, 2022. The fund made no transfers to fund projects during the fiscal year.

The Capital Projects Fund showed an overall decrease of \$39,345 bringing the fund balance to \$83,801 at April 30, 2022. The fund balance fluctuates based on the timing of projects and receipt of bond proceeds.

The Land Acquisition and Building Fund has a fund balance of \$224,451 at April 30, 2022. The net decrease of \$444,692 is the result of the net activity related to the Leigh Creek South and Sky Harbor projects.

Proprietary funds. The District's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The primary proprietary fund of the District is the Golf Course Fund. At the end of the current fiscal year, the Golf Course Fund had a net position of \$2,885,804. Factors concerning the finances of this fund have already been addressed in the discussion of the District's business-type activities.

General Fund Budgetary Highlights

The General Fund is reported as a major fund, and accounts for the routine park operations of the District.

Revenues in the General Fund were \$884,597, which was \$41,370 over the budgeted amount. Expenditures were \$975,798, which was \$160,343 (14.1%) under budget. The net budget variance was a favorable \$201,713. Lower than anticipated wages and contracted services costs contributed to the favorable variance.

Capital Asset and Debt Administration

Capital Assets. The District's investment in capital assets for its governmental and businesstype activities as of April 30, 2022, amounts to \$26,920,085 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, land and park improvements, buildings and improvements, infrastructure, machinery and equipment, and vehicles. During the fiscal year, the District added \$1,395,073 in new assets and recorded \$658,265 of depreciation expense related to all assets.

Capital asset additions in the current year include:

- Completion of work on the new Leigh Creek South Park development project. Approximately 50% of the project was funded through OSLAD Grants and other donations through the Lincolnway Special Recreation Association's fundraising events.
- Completion of work on the Fitness Court.
- Substantial work on Sky Harbor Park development project, utilizing matching funds through the OSLAD grant program.
- Addition of two zero-turn mowers a striper/painter for park maintenance.
- Roof replacement and security system upgrades at the Administrative building.
- Exterior upgrades at the Golf Course, a new pump for the irrigation system and purchase of a new grinder for equipment repairs.

Additional information on the District's capital assets can be found in note II B. to the financial statements on pages 28-29.

Long-term debt. At the end of the current fiscal year, the District had general obligation debt outstanding of \$378,000 related to governmental activities. In addition, the District has entered into debt transactions to finance equipment used in its operating activities (balance of \$108,905 at fiscal year-end).

General obligation debt service requirements are met through the annual levy of property taxes. The 2021 equalized assessed valuation of the District is \$1,498,625,960 (most recent available). On July 18, 1991, the Illinois General Assembly approved the Property Tax Extension Limitation Act 87-17 (the Act). The Act limits the increase in property tax extensions to 5% or the percent increase in the National Consumers Price Index (CPI), whichever is less. The Act applies to the 1994 levy year for taxes payable in 1995 and all subsequent years. Increases above 5% or the CPI must be approved by the voters in a referendum. The Act contains significant limitations on the amount of property taxes that can be extended and on the ability of such taxing districts to issue non-referendum general obligation bonds.

Legislation was introduced and passed in the Illinois General Assembly, which amended the Property Tax Extension Limitation Law in the Property Tax Code. The amendment provides that "debt service extension base" means, for park districts (i) that were first subject to this Law in 1991 or 1995 and (ii) whose extension for the 1994 levy year for the payment of principal and interest on bonds issued by the park district without referendum (but not including excluded nonreferendum bonds) was less than 51% of the amount for the 1991 levy year constituting an extension for payment of principal and interest on bonds issued by the park district without referendum (but not including excluded non-referendum bonds), and amount equal to that portion of the extension for the 1991 levy year constituting an extension for payment of principal and interest on bonds issued by the park district without referendum (but not including excluded non-referendum bonds). The amendment also provides that "excluded non-referendum bonds" means (i) bonds authorized for certain aquarium and museum projects, (ii) double-barreled bonds, and (iii) refunding obligations issued to refund or to continue to refund obligations initially issued pursuant to referendum. This legislation addressed the unintended consequences of the property tax cap and authorized the issuance of non-referendum bonds by park districts annually for critical capital improvements, maintenance, and repairs.

The District's debt service extension for principal and interest payments due in the year ended April 30, 2022, totaled \$196,320.

Additional information related to the District's long-term debt could be found in note II C. to the financial statements on pages 30-34.

Initiatives

Upcoming initiatives for the new fiscal year 2022-2023 include:

- The District will continue to devote resources toward maintaining, improving, and expanding its parks, playgrounds, and facilities. Plans for the upcoming year include the purchase of a new pickup truck for park maintenance and Ford Explorer for the administration building, installation of a new tot lot playground at Bristol park, renovation of the disc golf course at Haines Park, installation of a new control panel for the irrigation system at the golf course, and replacement of the fleet of golf carts. Projects are primarily determined based on the District's Comprehensive Master Plan as it relates to facilities and golf course, with schedules adjusted during the COVID-19 recovery period. Proceeds remaining from the debt issued in fiscal year 2018 will be used to fund many of these projects.
- The District was awarded an OSLAD matching grant in 2021 from the Illinois Department of Natural Resources to help build a new park at Sky Harbor. Work began in Spring of 2021 and planned completion is scheduled for late Fall of 2022. The Park includes creative play area, FitCore challenge courses, tennis courts, shelters, bocce ball and bag toss areas.
- In August 2022, The District was awarded an OSLAD matching grant from the Illinois Department for Natural Resources to help fund the Hibernia Park Phase II Development. Plans include the addition of a combination building with a pavilion, concessions, mechanical storage room and restrooms, as well replacing/installing a 50% bigger splash pad, and expanding the existing boat dock, including an accessible kayak launch.
- The District began architectural and engineering planning to develop the Water Chase Park, in the Water Chase Estates subdivision. Plans are to submit a request for OSLAD grant funds in the fall of 2022 for anticipated work to begin in the 2024 fiscal year. Initial designs

for the 3.03-acre area include installation of a pavilion, playground area, wiffle ball field, pickle ball courts and a walking / running path.

- The District will continue to work on renovating parks that do not conform to the Americans with Disabilities Act and have been listed in our ADA Title II Self Evaluation of Facilities. Various park and athletic sites are scheduled to have accessible walkways, playground surfaces and concrete platforms renovated and added to meet the Americans with Disabilities Act specifications.
- The Golf Course continues to adapt its operations to respond to challenges in the aftermath of the COVID-19 pandemic. Rising operating costs have forced increases in public rates for non-residents, but New Lenox resident rates will remain the same for now.
- The District's Recreation program registrations continue to increase as we work to restore program participation to pre-pandemic levels. The before and after school programs continue to be in higher demand.
- The District continues to expand its use of technology to accommodate remote and mobile workers and continues to move toward a more paperless environment. IT Security improvements are also being made.
- The District will continue the 5-year initiative to rebuild fund reserves in order to support favorable bond ratings and interest rates on long term debt. Reserves were critical to helping the District survive the impact of the COVID-19 pandemic.
- The District expects that tax revenue will increase for the next fiscal year. Tax rates will decrease slightly, and the Equalized Assessed Valuation (EAV) is expected to increase by approximately 4%.

Factor's Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was not aware of any existing circumstances that would adversely affect its financial health in the near future.

Contacting the District's Financial Management

This financial report is designed to provide a general overview of the District's finances, comply with finance related laws and regulations, and demonstrate the District's commitment to public accountability. If you have any questions about this report or would like to request additional information, please contact Greg S. Lewis, Executive Director, at 701 W. Haven Ave., New Lenox, IL 60451.

NEW LENOX COMMUNITY PARK DISTRICT, ILLINOIS RECONCILIATION OF FUND BALANCES - TOTAL GOVERNMENTAL FUNDS TO NET POSITION OF GOVERNMENTAL ACTIVITIES APRIL 30, 2022

Fund balances - total governmental funds	\$	1,496,662
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds.		24,325,133
The IMRF net pension asset is not an available financial resource and, therefore, is not reported in the funds.		72,103
Deferred outflows and inflows of resources related to pensions at year-end are as follows:		
Deferred outflows related to pensions\$ 280,420Deferred inflows related to pensions(678,540)		
Total		(398,120)
Deferred outflows and inflows of resources related to other postemployment benefits at year-end are as follows:		
Deferred outflows related to other postemployment benefits\$ 13,105Deferred inflows related to other postemployment benefits(41,805)		
Total		(28,700)
Accrued interest payable was recognized for governmental activities but is not due and payable in the current period and therefore is not recorded as a liability in the governmental funds.		(3,175)
Long-term liabilities, including bonds payable, are not due and payable in the current year and, therefore, are not reported as liabilities in the funds. Long-term liabilities at year-end consist of:		
General obligation limited tax park bonds payable\$ (378,000)Installment contracts payable(57,771)Compensated absences payable(131,424)Other postemployment benefits liability(136,241)		
Total		(703,436)
Net position of governmental activities	<u>\$</u>	24,760,467

NEW LENOX COMMUNITY PARK DISTRICT, ILLINOIS RECONCILIATION OF THE NET CHANGE IN FUND BALANCES (DEFICIT) OF GOVERNMENTAL FUNDS TO THE CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES YEAR ENDED APRIL 30, 2022

Net change in fund balances (deficit) - total governmental funds\$	(130,226)
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capitalized expenditures (\$1,271,003) exceeded depreciation (\$559,314) in the current period.	711,689
The net effect of transactions involving dispositions of capital assets was to decrease net position.	(10,364)
The issuance of long-term debt (e.g., bonds, installment contracts) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt uses current financial resources of governmental funds. Neither transaction, however, has any effect on net position. The net effect of these differences in the treatment of long-term debt and related items is summarized as follows:	
Issuance of installment contracts\$ (85,092)Principal repayments of long-term debt225,058	
Total	139,966
The change in the compensated absences liability is reported as an increase in expenses on the statement of activities.	(11,147)
Governmental funds report pension contributions as expenditures. However, in the statement of activities, the cost of pension benefits earned is reported as pension expense. This is the amount by which pension contributions exceeded pension benefits earned in the current period.	136,656
Governmental funds report other postemployment benefit contributions as expenditures. However, in the statement of activities, the cost of other postemployment benefits earned is reported as other postemployment benefits expense. This is the amount by which other postemployment benefits earned exceeded contributions in the current period.	(13,097)
Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. The decrease in the accrued interest balance results in a decrease in interest expense reported in the statement of activities.	2,010
Change in net position of governmental activities	825,487

NOTES TO BASIC FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of New Lenox Community Park District, Illinois. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support.

B. Reporting Entity

New Lenox Community Park District, Illinois (the "District") is an independent local governmental entity. The Board of Commissioners is composed of the President and four commissioners which form the legislative branch of the District. The financial statements of the District include all operations of the District. The District provides a wide range of recreational services, including over 680 acres of parkland consisting of 40 community and neighborhood parks, woodlands, wetlands, bikeways and open spaces. In addition, a golf course is provided under an enterprise fund concept, with user charges set by the Board to ensure adequate coverage of operating expenses and payments on outstanding debt.

These financial statements include the District and its component units, entities for which the District is considered to be financially accountable. At April 30, 2022, no entities were considered to be component units of the District.

C. Basis of Presentation - Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from the governmental funds, while business-type activities incorporate data from the District's enterprise funds. Separate financial statements are provided for governmental funds and proprietary funds.

As general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the District's golf course and banquet hall functions and other various functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions.

D. Basis of Presentation - Fund Financial Statements

The fund financial statements provide information about the District's funds. Separate statements for each fund category - governmental and proprietary - are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The District reports the following governmental funds:

Major governmental funds:

The General Fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Recreation Fund is used to account for the various recreational programs offered to the residents of the District. This fund is funded by property taxes restricted for recreation programs and membership fee revenue.

The Special Recreation Fund is used to account for special recreation programs within the District. This fund is funded by property taxes restricted for special recreation programs.

The Debt Service Fund is used to account for the accumulation of resources for the payment of general long-term debt principal, interest and related costs.

The Capital Projects Fund is used to account for financial resources earmarked or segregated for the acquisition and/or construction of capital assets, except those financed and accounted for in other funds.

The Land Acquisition and Building Fund is used to account for the acquisition and construction of major capital facilities, equipment, and capital asset replacements.

Nonmajor governmental funds:

Special revenue funds:

This fund type is used to account for the proceeds of specific revenue sources that are restricted by law or administrative action to expenditure for specific purposes other than debt service or capital projects. The District's nonmajor special revenue funds are the Audit Fund, Liability Insurance Fund, Social Security Fund, Illinois Municipal Retirement Fund, and Paving and Lighting Fund.

The District reports the following major proprietary funds:

The Golf Course Fund is used to account for the activity of the Sanctuary Golf Course. The course is owned and operated by the District.

The Banquet Hall Fund is used to account for the activity of the banquet hall. The hall is owned and operated by the District.

During the course of operations, the District has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities are eliminated so that only the net amount is included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in the net amount is included as transfers in the governmental so that only the net amount is included as transfers in the governmental so that only the net amount is included as transfers in the business-type activities column.

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized in accordance with the District's appropriation ordinance. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Additionally, property taxes are recognized as revenues in accordance with the District's appropriation ordinance. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under installment contracts are reported as other financing sources.

Property taxes, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (see preceding paragraph for discussion of the availability period). All other revenue items are considered to be measurable and available only when cash is received by the District.

The proprietary funds are reported using the *economic resources measurement focus* and the *accrual basis of accounting*.

F. Stewardship, Compliance and Accountability

1. Budgetary Basis of Accounting

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for all governmental and proprietary funds. All annual appropriations lapse at fiscal year end.

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. The Director submits to the Board of Commissioners a proposed operating budget for the fiscal year. The operating budget includes proposed expenditures/expenses and the means of financing them for all funds.
- 2. Public hearings are conducted by the District to obtain taxpayer comments.
- 3. Subsequently, the appropriation is legally enacted through passage of an ordinance.
- 4. The Director is authorized to transfer appropriated amounts between departments within funds with proper Board approval, and revisions that alter the total expenditures of any fund must be approved by the Board.
- 5. State law requires that "expenditures be made in conformity with appropriation/budget." The level of legal control is generally considered the entire appropriation.
- 6. The Board of Commissioners may amend the budget by the same procedures required of its original adoption.
- 7. Appropriated amounts are as originally adopted.
- 8. Budgeted appropriated revenue amounts are as originally adopted.

G. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

1. Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

2. Deposits and Investments

Investments are reported at fair value which is determined using selected bases. Short-term investments and investments in the Illinois Park District Liquid Asset Fund and The Illinois Funds investment pools are reported at fair value, which are also the value of the pool shares. Each of these funds is categorized as a Level 1 investment. The state of Illinois provides regulatory oversight of the Illinois Park District Liquid Asset Fund and The Illinois Park District Liquid Asset Fund and The Illinois Funds. Securities on a national exchange are valued at the last reported sales price and investments that do not have an established market are reported at estimated fair value. Cash deposits are reported at carrying amounts which reasonably approximate fair value.

Under Illinois law, the District is restricted to investing funds in specific types of investment instruments. The following generally represents the types of instruments allowable by Illinois law:

Instruments of the United States of America or its agencies, instruments which are guaranteed by the full faith and credit of the United States as to principal and interest, and instruments issued by Fannie Mae.

Interest-bearing accounts of banks and savings and loan associations insured by the Federal Deposit Insurance Corporation.

Short-term obligations (less than 180 days) of U.S. corporations with assets over \$500 million rated in the highest classification by at least two rating agencies.

Insured accounts of an Illinois credit union chartered under U.S. or Illinois law.

Money market mutual funds with portfolios of securities issued or guaranteed by the U.S. government or agreements to repurchase these same types of obligations.

Illinois Park District Liquid Asset Fund and The Illinois Funds.

Repurchase agreements, which must meet instrument transaction requirements of Illinois law. The District does not invest in repurchase agreements.

3. Inventories and Prepaid items

All inventories are valued at cost using the first-in/first-out (FIFO) method. The cost of such inventories is recorded as an expense when consumed rather than when purchased.

Certain prepayments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items for both government-wide and fund financial statements. The cost of prepaid items is recorded as an expense/expenditure when consumed rather than when purchased.

4. Capital Assets

Capital assets, which include land, construction in progress, land and park improvements, buildings and improvements, infrastructure, machinery and equipment, and vehicles, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities, if any, is included in the capitalized value of the asset constructed. No such interest expense was incurred during the current fiscal year.

Land and construction in progress are not depreciated. The other capital assets are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and improvements	25 - 50
Infrastructure	20
Land and park improvements	20
Machinery and equipment	5 - 15
Vehicles	8

In the fund financial statements, capital assets acquired for use in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

5. Deferred Outflows/Inflows of Resources

In addition to assets, the financial statements will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until that time. The District has two items that qualify for reporting in this category in the government-wide statement of net position and the proprietary funds statement of net position. They are *deferred outflows of resources related to pensions* (see Note III.C for further discussion of deferred outflows of resources related to other *postemployment benefits* (see Note III.E for further discussion of deferred outflows of resources related to other postemployment benefits).

In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The District has three types of items that qualify for reporting in this category. One item, *unearned revenue*, is reported in the government-wide statement of net position and governmental funds balance sheet. The District reports unearned/unavailable revenue from one source - property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts are earned or become available. The other items, included in the government-wide statement of net position and proprietary funds statement of net position, are *deferred inflows of resources related to pensions*, (see Note III.C for further discussion of deferred inflows of resources related to other postemployment benefits (see Note III.E for further discussion of deferred inflows of resources related to other postemployment benefits).

6. Long-term Obligations

In the government-wide financial statements and proprietary fund type in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, as well as gains (losses) on refundings, are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Gains (losses) on refundings are reported as deferred inflows (outflows) of resources. Bond issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenses.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

7. Net Position Flow Assumption

Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied.

It is the District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

8. Fund Balance Flow Assumptions

Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

9. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The Board of Commissioners is the highest level of decision-making authority for the District that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balances. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The Board has authorized the executive director to assign fund balances. The Board of Commissioners may also assign fund balances as it does when appropriating fund balances to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

H. Revenues and Expenditures/Expenses

1. Program Revenues

Amounts reported as *program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

2. Property Taxes

Property taxes are levied as of January 1 on property values assessed on the same date. The tax levy is divided into two billings: the first billing is mailed on or about February 1 of the following year and the second billing is mailed on or about July 1 of the following year. The billings are considered past due 30 days after the respective tax billing date at which time the applicable property is subject to lien and penalties and interest are assessed. The District receives significant property tax distributions in the month following the due dates. Since the tax levy is intended to fund fiscal year 2023, the levy has been recorded as a receivable and a deferred inflow of resources.

3. Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused vacation pay benefits. There is no liability for unpaid accumulated sick leave since the District does not pay any amounts when employees separate from service with the District. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured as a result of employee resignations and retirements.

4. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Golf Course and Banquet Hall enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

I. Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amount of assets, liabilities, and deferred outflows/inflows of resources; the disclosure of contingent assets and liabilities; and the reported revenues and expenditures/expenses. Significant estimates used in preparing the government-wide financial statements include the assumptions used to determine the net pension liability and the deferred outflows/inflows of resources related to the District's participation in the Illinois Municipal Retirement Fund (see Note III.C). Actual results could differ from those estimates.

J. New Accounting Standard - Leases

In June 2017, the GASB issued Statement No. 87, *Leases*. The most significant change in the new leasing guidance is the requirement for a lesse to recognize a lease liability and an intangible right-to-use asset, and a lessor to recognize a lease receivable and a deferred inflow of resources. Statement No. 87 is effective for fiscal years beginning after June 15, 2021. The District is currently evaluating the effect the adoption of Statement No. 87 is expected to have on its financial statements and related disclosures.

K. Reclassifications

Certain amounts as reported for the previous year have been reclassified to conform to the current year's presentation.

II. DETAILED NOTES ON ALL ACTIVITIES AND FUNDS

A. Deposits

Custodial credit risk for deposits is the risk that, in the event of a bank failure, the District's deposits might not be recovered. The District does not have a deposit policy for custodial credit risk. As of April 30, 2022, \$2,568,494 of the District's bank balances of \$2,818,494 was uninsured and collateralized with securities held by the pledging financial institution.

B. Capital Assets

Capital asset activity for the year ended April 30, 2022 was as follows:

	Beginning Balance	Increases	Decreases / Transfers	Ending Balance
Governmental activities:				
Capital assets not being depreciated:				
Land	\$ 15,699,001	\$-	\$ -	\$ 15,699,001

liability (see Note III.E)		28,313		1,790		(2,730)		27,373		-
Business-type activity										
long-term liabilities	\$	239,893	\$	55,057	\$	(216,443)	\$	78,507	\$	23,694

The general obligation limited tax park bonds will be serviced by the Debt Service Fund. The governmental activity installment contracts will be liquidated by the Recreation Fund and the Special Recreation Fund. Compensated absences payable will be liquidated by the General Fund and the Recreation Fund. The governmental activity IMRF net pension liability will be liquidated by the Illinois Municipal Retirement Fund, a nonmajor governmental fund. The governmental activity other postemployment benefits liability will be liquidated by the General Fund. The governmental fund. The governmental activity other postemployment benefits liability will be liquidated by the General Fund. The Governmental fund. The governmental activity long-term liabilities will be liquidated by the General Fund.

Schedules of the long-term debt outstanding at April 30, 2022 are as follows:

Governmental Activities

General obligation limited tax park bonds:

Total	\$ 51,134	\$	3,525	\$ 54,659		

Legal Debt Margin

The legal debt margin of the District as of April 30, 2022 is determined as follows:

Assessed valuation - 2021 tax year (most current valuation available)	<u>\$ 1,498,625,960</u>			
Statutory debt limitation (5.75% of assessed valuation)	<u>\$ 86,170,993</u>			
Debt: General obligation bonds outstanding Installment contracts payable	378,000 108,905			
Total debt	486,905			
Legal debt margin	<u>\$ 85,684,088</u>			

D. Interfund Transfers

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them in accordance with budgetary authorizations. The interfund transfers during the year ended April 30, 2022 were as follows:

Fund	Transfers	in	Transfers out	
Major governmental fund: Recreation Fund Major proprietary fund: Golf Course Fund	\$ 35	- 5	\$ 35,071	
Total	<u>\$ 35</u>	<u>,071 </u>	\$ 35,071	

E. Fund Balances

As of April 30, 2022, fund balances were comprised of the following:

	General Fund	Recreation Fund			Capital Projects Fund	Land Acquisition and Building Fund	Total Nonmajor Governmental Funds	Total Governmental Funds	
Nonspendable: Prepaid items	<u>\$ 14,268</u>	<u>\$ 9,159</u>	<u>\$ 53,870</u>	<u>\$ -</u>	<u>\$</u>	<u>\$ -</u>	<u>\$ 40,445</u>	<u>\$ 117,742</u>

Total fund balances	\$ 488,344	<u>\$ 104,389</u>	<u>\$ 390,774</u>	<u>\$ 2,992</u>	<u>\$ 83,801</u>	<u>\$ 224,451</u>	<u>\$ 201,911</u>	<u>\$ 1,496,662</u>	

Note: The assigned amount of \$238,000 will be used to eliminate the budget deficit for the year ended April 30, 2023.

F. Tort Immunity Expenditures

Tort immunity expenditures for the year ended April 30, 2022 are summarized as follows:

General liability, property and employment	
practices insurance	\$ 61,253
Workers' compensation insurance	 37,874
Total	\$ 99 127
Total	\$ 99,12

III. OTHER INFORMATION

A. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injury to employees; and natural disasters. In order to protect against such losses, the District has purchased insurance from private insurance companies. The amount of coverage has not decreased nor have the amount of settlements exceeded coverage in the current year or any of the past three years.

B. Special Recreation Fund

The District along with the park districts of Frankfort, Manhattan and Mokena, formed the Lincolnway Special Recreation Association (LWSRA), established through Section 8-10.1 of the Park District Code, to provide recreation facilities and programs for special populations within the respective park districts. A separate levy is made by each park district to fund the operations of LWSRA.

C. Illinois Municipal Retirement Fund

Plan Description. The District's (employer's) defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The employer's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of an agent multiple employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Annual Comprehensive Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

Benefits Provided. IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan. The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date). Employees of the District who are eligible to participate in the Plan participate in the Regular Plan.

All three IMRF benefit plans have two tiers. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after 10 years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with 10 years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- One-half of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms. As of December 31, 2021, the following employees were covered by the benefit terms:

Retirees and beneficiaries currently receiving benefits	17
Inactive plan members entitled to but not yet receiving benefits	45
Active plan members	44
Total	106

Contributions. As set by statute, the employer's Regular Plan members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer's annual contribution rates for calendar years 2021 and 2022 were 10.71% and 9.94%, respectively. For fiscal year ended April 30, 2022, the employer contributed \$227,410 to the plan. The employer also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute. Contributions for the year ended April 30, 2022 are reported in the financial statements as follows:

Governmental activities	\$	177,857
Business-type activities		49,553
Total contributions	<u>\$</u>	227,410

Net Pension (Asset)/Liability. The employer's net pension (asset)/liability was measured as of December 31, 2021. The total pension liability used to calculate the net pension (asset)/liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The following are the methods and assumptions used to determine the total pension liability at December 31, 2021:

- The Actuarial Cost Method used was Entry Age Normal.
- The Asset Valuation Method used was Fair Value of Assets.
- The Inflation Rate was assumed to be 2.25%.
- Salary Increases were expected to be 2.85% to 13.75%, including inflation.
- The Investment Rate of Return was assumed to be 7.25%.
- Projected Retirement Age was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2020 valuation, pursuant to an experience study from years 2017 to 2019.
- Mortality Nondisabled Retirees: the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020 were used.
- Mortality Disabled Retirees: the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020 were used.
- Mortality Active Members: the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020 were used.

• The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2021:

	Portfolio Target	Long-Term Expected Real Rate of
Asset Class	Percentage	Return
Domestic equity International equity Fixed income Real estate Alternative investments	39 % 15 25 10 10	1.90 % 3.15 (0.60) 3.30 1.70-5.50
Cash equivalents	<u> </u>	(0.90)
Total	<u> 100 %</u>	

Single Discount Rate. A Single Discount Rate of 7.25% was used to measure the total pension liability as of December 31, 2021. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension (Asset)/Liability. Changes in the District's net pension (asset) liability for the year ended December 31, 2021 were as follows:

	То	Liability Net		n Fiduciary et Position (b)		Vet Pension (a) - (b)
Balances at December 31, 2020	<u>\$</u>	7,417,175	<u>\$</u>	6,878,958	<u>\$</u>	538,217
Changes for the year:

Balances at December 31, 2021	\$	7,952,530	\$	8,044,721	\$	(92,191)

The net pension (asset) as of April 30, 2022 is reported in the financial statements as follows:

Governmental activities Business-type activities	\$ (72,103) (20,088)
Total net pension (asset)	\$ (92,191)

Sensitivity of the Net Pension (Asset)/Liability to Changes in the Discount Rate. The following presents the plan's net pension (asset)/liability using a Single Discount Rate of 7.25%, as well as what the plan's net pension (asset)/liability would be if it were calculated using a Single Discount Rate that is 1% lower or 1% higher than the current rate:

	Current					
	1% Lower (6.25%)		Discount Rate (7.25%)		1% Higher (8.25%)	
Primary government:						
Governmental activities	\$	822,020	\$	(72,103)	\$	(776,543)
Business-type activities		229,016		(20,088)		(216,346)

Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions. For the year ended April 30, 2022, the employer recognized pension expense of \$49,093. Pension expense for the year ended April 30, 2022 is reported in the financial statements as follows:

Governmental activities Business-type activities	\$ 38,396 10,697
Total pension expense	\$ 49,093

At April 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Deferred Amounts Related to Pensions	Deferred Outflows of Resources		Ι	Deferred Inflows of Resources	
Deferred amounts to be recognized in pension expense in future periods:					
Differences between expected and actual experience Changes of assumptions Changes in proportionate share Net difference between projected and actual earnings on	\$	205,420 63,891 18,941	\$	21,937 97,989 18,941	
pension plan investments				747,662	
Total deferred amounts to be recognized in pension expense in future periods		288,252		886,529	
Pension contributions made subsequent to the measurement date		65,018			
Total deferred amounts related to pensions	\$	353,270	\$	886,529	

Deferred outflows of resources and deferred inflows of resources related to pensions as of April 30, 2022 are reported in the financial statements as follows:

	0	Deferred Outflows of <u>Resources</u>		Deferred Inflows of Resources	
Governmental activities Business-type activities	\$	280,420 72,850		678,540 207,989	
Total	<u>\$</u>	353,270	\$	886,529	

Amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense in years ending April 30 as follows:

Fiscal Year	Ι	et Deferred nflows of Resources
2023 2024 2025 2026	\$	(7,951) (211,488) (189,893) (123,927)
Total	<u>\$</u>	(533,259)

D. Health Program

On July 1, 1999, the District became a member of the Park District Risk Management Agency (PDRMA) Health Program, a health benefits pool of park districts, special recreation associations, and public service organizations through which medical, vision, dental, life and prescription drug coverages are provided in excess of specified limits for the members, acting as a single insurable unit. The pool purchases excess insurance covering single claims over \$300,000. Until January 1, 2001, the PDRMA Health Program was a separate legal entity formerly known as the Illinois Park Employees Health Network (IPEHN).

Members can choose to provide any combination of coverages available to their employees, and pay premiums accordingly.

As a member of the PDRMA Health Program, the District is represented on the Health Program Council as well as the Membership Assembly and is entitled to one vote on each. The relationship between the member agency and the PDRMA Health Program is governed by a contract and by-laws that have been adopted by resolution of each member's governing body. Members are contractually obligated to make all monthly payments to the PDRMA Health Program and to fund any deficit of the PDRMA Health Program upon dissolution of the pool. They will share in any surplus of the pool based on a decision by the Health Program Council.

E. Postretirement Health Plan

Plan Description. In addition to providing the pension benefits described above, the District offers a single employer, defined benefit postemployment health care benefits (OPEB) through the PDRMA Health Plan, administered by PDRMA, a public entity risk pool. The OPEB plan is not administered by a Trust that meets the criteria in paragraph 4 of GASB Statement 75.

Benefits Provided. The District offers medical, prescription drug, dental, and vision coverage. Retirees pay the full premium. An employee must retire or become disabled under the terms of Illinois Municipal Retirement Fund (IMRF) or other participating pension plan on or after January 1, 1991, and must have been covered under the PDRMA Health Program on the date immediately prior to retirement or disability. Coverage ends at age 65 for disabled employees or once eligible for Medicare for retired employees.

Employees Covered by Benefit Terms. As of the date of the plan year end, September 30, 2021, the following employees of the District were covered by the benefit terms:

Retired employees or beneficiaries currently receiving benefits	-
Active employees	32
Total	32

Total OPEB Liability. The District's total OPEB liability of \$163,614 was measured as of the date of the plan year end, September 30, 2021, and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and Other Inputs. The total OPEB liability in the September 30, 2021 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods in the measurement, unless otherwise specified:

- The Actuarial Cost Method used was Entry Age Normal (Level Percentage of Pay).
- Salary increases expected vary from 2.89% to 9.85% by age and years of service.
- The discount rate of 2.26% was based upon the General Obligation Municipal Bond Rate (which is published by the Federal Reserve) as of September 30, 2021.
- Healthcare cost trend rate for medical benefits is 6.00%, graded to 4.50% over 15 years. The healthcare cost trend rate for prescription drug benefits is 7.00%, graded to 4.50% over 17 years.

- Age-based turnover rates were developed based on probability of remaining employed until assumed retirement age.
- Mortality rates were based on the Pub-2010 General Healthy Retiree Headcount-Weighted Below-Median Income Mortality Tables adjusted by 106% for males and 105% for females (projected generationally using Scale MP-2020) and Pub-2010 Disabled Retiree Headcount-Weighted Mortality Tables projected generationally using Scale MP-2020.
- The retirees' share of benefit-related costs was 100% of the projected health insurance premiums.

Changes in the Total OPEB Liability. Changes in the District's total OPEB liability for the year ended April 30, 2022 were as follows:

	Total OPEB Liability		
Balance at April 30, 2021	<u>\$</u>	157,384	
Changes for the year:			
Service cost		11,077	
Interest expense		3,714	
Differences between expected and actual experience		(7,171)	
Changes of assumptions or other inputs		(616)	
Benefit payments		(774)	
Net changes		6,230	
Balance at April 30, 2022	\$	163,614	

The total OPEB liability as of April 30, 2022 is reported in the financial statements as follows:

Governmental activities Business-type activities	\$	136,241 27,373
Total OPEB liability	<u>\$</u>	163,614

The total OPEB liability is an unfunded obligation of the District.

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate. The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current discount rate:

	Current					
	1% Lower (1.26%)		Discount Rate (2.26%)		1	% Higher (3.26%)
		(1.2070)		(2.20/0]		(5.2070)
Total OPEB liability	<u>\$</u>	173,593	<u>\$</u>	163,614	<u>\$</u>	153,567

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates. The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1% lower or 1% higher than the current healthcare cost trend rates:

		Current Healthcare Cost				
	1% Lower (Varies)	Trend Rates (Varies)	1% Higher (Varies)			
Total OPEB liability	<u>\$ 146,459</u>	<u>\$ 163,614</u>	<u>\$ 183,718</u>			

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB. For the year ended April 30, 2022, the District recognized OPEB expense of \$10,696. OPEB expense for the year ended April 30, 2022 is reported in the financial statements as follows:

Governmental activities Business-type activities	\$ 8,906 1,790
Total OPEB expense	\$ 10,696

At April 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Deferred Amounts Related to OPEB	Deferred Outflows of <u>Resources</u>		In	Deferred Inflows of Resources	
Differences between expected and actual experience Changes of assumptions and other inputs Change in proportionate share	\$	7,061 5,611 7,025	\$	25,152 19,682 7,025	
Total	\$	19,697	\$	51,859	

Deferred outflows of resources and deferred inflows of resources related to OPEB as of April 30, 2022 are reported in the financial statements as follows:

	O	Deferred utflows of Resources	In	Deferred flows of esources
Governmental activities Business-type activities	\$	13,105 6,592	\$	41,805 10,054
Total	<u>\$</u>	19,697	<u>\$</u>	51,859

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense in years ending April 30 as follows:

Fiscal Year	In	t Deferred flows of esources
2023 2024 2025 2026 2027	\$	$\begin{array}{c} (3,321) \\ (3,321) \\ (3,321) \\ (3,321) \\ (3,321) \\ (3,321) \end{array}$
Thereafter Total	\$	(15,557) (32,162)

F. Subsequent Events

Management has evaluated subsequent events through October 12, 2022, which is the date the financial statements were available to be issued.

NOTES TO SCHEDULES

Valuation Date. Actuarially determined contribution rates are calculated as of December 31 each year, which is four months prior to the beginning of the fiscal year in which contributions are reported.

Methods and Assumptions Used to Determine 2021 Contribution Rates:

Actuarial cost method	Aggregate entry age normal
Amortization method	Level percentage of payroll, closed
Remaining amortization period	22-year closed period
Asset valuation method	5-Year smoothed market; 20% corridor
Wage growth	3.25%
Price inflation	2.50%
Salary increases	3.35% to 14.25%, including inflation
Investment rate of return	7.25%
Retirement age	Experience-based table of rates that are specific to the type of eligibility condition; last updated for the 2017 valuation pursuant to an experience study of the period 2014 to 2016.

See independent auditor's report.

NEW LENOX COMMUNITY PARK DISTRICT, ILLINOIS REQUIRED SUPPLEMENTARY INFORMATION -ILLINOIS MUNICIPAL RETIREMENT FUND

Mortality For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Healthy Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustments that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustments that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

Other information:

Notes

There were no benefit changes during the year.

STATISTICAL SECTION

NEW LENOX COMMUNITY PARK DISTRICT, ILLINOIS STATISTICAL SECTION APRIL 30, 2022

This part of the District's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health. The section is divided into five sections as follows:

Financial Trends - These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.

1	U	0		
			Page)
Net Position by Component			86 - 8	\$7
Changes in Net Position			88 - 9	1
Fund Balances of Governmental Funds			92 - 9	13
Changes in Fund Balances of Government	tal Funds		94 - 9	15

Revenue Capacity - These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.

	Page
Assessed Value and Estimated Actual Value of Taxable Property	96 - 97
Assessed Valuations, Tax Rates and Extensions	98 - 99
Tax Rates of Direct and Overlapping Taxing Districts	100
Principal Property Taxpayers	101

Debt Capacity - These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.

	Page
Ratio of Outstanding Debt by Type	102
Ratio of General Bonded Debt Outstanding	103
Direct and Overlapping Debt	104
Legal Debt Margin Information	105 - 106

ъ

Dama

Demographic and Economic Information - These schedules contain demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.

•	Page
Demographic and Economic Statistics	107
Principal Employers	108

Operating Information - These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.

	Page
District Employees by Type	109 - 112
Operating Indicators	113 - 116
Capital Asset Statistics by Function	117 - 118

Direct debt:				
New Lenox Community Park District		378,000	100.000	378,000
Total direct and overlapping debt				\$ 217,989,506

- Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. The schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents of the District. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.
- (1) Excludes principal amounts of outstanding general obligation alternate revenue source bonds which are expected to be paid from sources other than general taxation.
- (2) Includes original principal amounts of outstanding capital appreciation bonds.
- (3) Excludes installment purchase contracts and IEPA loans.
